## 2 Overview of training events

### 2.1 Summary

Both trainings took place in the Zlín region. Farmers were actively encouraged to grow SRCs on their marginal lands that suited best. Expectations of participations were fulfilled and other material like handbook and flyer support the seminar in professional way.

### 2.2 Feedback from participants

All feedbacks are summarized in the chapter 6. The most important is that all participants said that the topics were at least good. Participants were satisfied with the topics and overall information in the seminars.

Agricultural practices in the Zlín region

Funding of SRCs

Use of wood chips in the small local boilers

### 3.3 Summary

The second training event for farmers in the Zlín Region took place in Dolní Němčí on Tuesday 30/08/2015. 18 farmers from the whole area of the Zlín Region participated in this event. The main goal of the meeting was to transfer the know-how on SRC plantation, discuss economic issues, and promote the best agricultural practices as well as address sustainability issues in the selection process

of suitable areas. Besides the farmers on the training were 18 small and medium users of wood chips, because of the good setting of datum and place. Village Dolní Němčí is situated in the south part of the Zlín region and has long agricultural tradition.

## 5 Evaluation of questionnaires

### From the second training:

The participating farmers were proactively cooperating with sharing their experience and issues they have with SRC plantations development. At the end of the training course the feedback was collected from the participants in which they very favourably evaluated the information provided them during the event.

## 6 Lessons learned and adjustment of training concept for farmers

Adjustments were in the second training in funding and donation schemes for the SRCs. Seminars were successfully led into the cooperation between EAZK and some potential participants. Some of them were contacted and were signed the letters of commitment.
