## 1 Introduction

Please describe briefly:

- **Aim of the training**  
Overview of the SRC production with supporting business models and characteristics of wood chips
- **Date and place of the training**  
Second workshop for small and medium users and traders took place in Zlín on 27th of January 2017
- **Number of participants:**  
The number of participants was 92.

## 2 Involved stakeholders

Please describe briefly:

- **How did you approach the stakeholders (which channels did you use, association that circulated the invitation...)**  
We use e-mail database developed during the project. Some of the participants were invited via previous live meeting.
- **List some of the main stakeholder groups present at the training (municipalities, companies that are managing public land, agencies....)**  
Participants were mostly users of wood chips from different villages of the Zlín region.

## 3 Results

Described briefly:

- **The course of the training**
  - Overview of the SRC production process
  - Business models
  - Sustainability and certification
  - Characteristics of wood chips
  - Marketing of wood chips
- **Main points of the discussion**
  - Donation for the biomass burners through grants in Czech
  - Wood chip quality and tips for the storage in private houses
  - Business models in the Zlín region – producer/trader/user

- **The results of the questionnaire**

- Most participants were invited to the seminar through e-mail. EAZK advertised the workshop via its own web pages.
- Most participants wanted to have overall information about SRC
- Expectations of the participants were fulfilled

- **Overall impression of the workshop**

The participants were satisfied with all the information. Workshop showed them all the aspects of the wood chip boilers and fuel quality.

- **Suggestions**

Participants suggested shorten the workshop. The amount of theory is enough for the one day seminar.
