Letter of commitment

Investment project on setting SRC plantation

Based on the passed presentation and consultation about SRCs with Energy agency of the Zlín region I consider about setting up the SRC plantation (poplars) on area 1 ha on my own garden in land register Knežpole for my own consumption for heating the building.

Specification of place:

- Land register Kněžpole

Plan of realisation: First plantation 2019-2020.

I welcome the cooperation with Energy agency of the Zlín region – consultations in frame of SRC+ project including Handbook of SRCs and flyers related to the educational actions.
