Letter of commitment

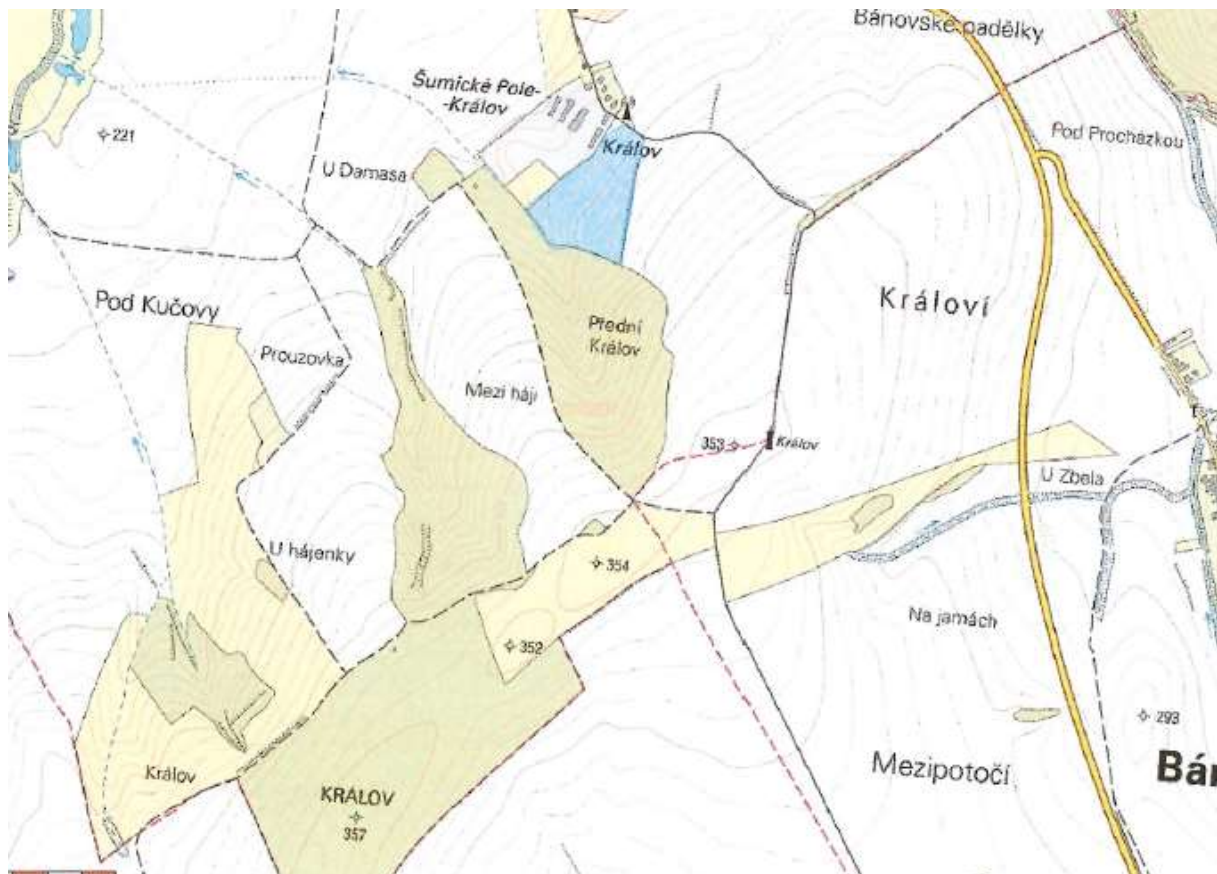

Investment project on setting SRC plantation

Based on the experience on SRC plantation and consultations with Energy agency of the Zlín region on setting up the supply chain from producer of wood chips to consumption in local boilers consider on enlarging the SRC plantation on 20 ha in land register Uhersky Brod and Banov.

Specification of place:

Bonificated soil ecological unit 3.06.50 is included in 4th grade of protection of agricultural soil

- Map:

Plan of realisation: Initiation of plantation in 2018-2020.

I welcome the cooperation with Energy agency of the Zlín region – consultations in frame of SRC+ project with the contacts to the future costumers and possible participation on educational action and gaining the materials to the own education action like handbook of SRCs

In Uh. Brodě 19.1.2017

Ing. Miroslav Borák
